

Womanspace COVID Protocols — January 2022

These COVID protocols MAY be changed by the Womanspace board in the coming weeks.

Womanspace operates on the HONOR SYSTEM, and we expect every person on campus to adhere to our COVID protocols for the safety and well-being of our community.

For classes and programs that have a small number of registrants (e.g. 10 or fewer), the following rules apply:

- Students, teachers, staff and visitors to Womanspace are required to wear a mask while indoors on campus. This pertains to ALL classes, programs and events. The type of mask used by fully vaccinated individuals may be cloth, medical or KN95 (CDC recommended).
- Students, teachers, staff and visitors to Womanspace who are NOT fully vaccinated are required to wear a KN95 mask while indoors. This pertains to ALL classes, programs and events. Womanspace maintains an emergency supply of KN95 masks in both buildings available for those who need one.
- Students, teachers, staff and visitors who have been exposed to or have symptoms of COVID are not allowed to be at Womanspace until they are fully symptom-free for a minimum of 5 days.
- These protocols are posted on all doors, in all bathrooms and in other prominent areas of both buildings.

The masking requirements described above pertain also to the protocols below that govern programs with larger registrations (where more than 10 are gathered in one space OR for an extended period of time).

The following Vaccination Protocol is mandatory for all:

For larger Womanspace-sponsored events or groups over 10 people, proof of vaccination (actual or digital copy) is required. Examples: day-long or weekend events either at Womanspace OR off-site, as in a theater or facility offering overnight accommodations and/or communal meals, i.e., Lunafest, Racine retreat, Jan Phillips event, Bookwoman group, Gongtopia, gallery openings, etc.

For such events, wherever possible, Womanspace will also offer hybrid programming, allowing individuals to participate either in person or by Zoom.

Womanspace will do its utmost to inform participants of any known exposures.
